MONEY, STOCKS AND BONDS. The Market Almost Buoyant-The Whole

List Advances Rapidly. NEW YORK, Nov. 21 .- Money on call was easy, ranging from 2 to 5 per cent., the last loan being made at 3; closing offered | times in the course of the day. Oats were

Prime mercantile paper, 612@812 per cent. Sterling exchange quiet but firm at \$4.80 for sixty-day bills and \$4.87 for demand.

The total sales of stocks to-day were 331.457 shares, including the following: Atchison, 16,840; Delaware, Lackawanna & Western, 13,325; Erie, 4,025; Lake Shore, 6,755; Louisville & Nashville, 17,529; Missouri Pacific, 10,600; Northwestern, 3,205; North American. 13,744; Northern Pacific, 11,370; Northern Pacific preferred, 31,838; Pacific Mail, 4,060; Reading, 13,230; Richmond & West Point, 17,648; St. Paul, 22,820; Texas Pacific, 3,135; Union Pacific, 9,010; Western Union, 6,386.

The stock market to-day was quite active again, and at the same time decidedly strong, and even bouyant at times, and the improved temper to the speculation was continuous throughout the day, the upward movement being subject to only slight interruptions. The street was cer-tainly more cheerful to-day than it has been in weeks, and the improvement was general, extending to all classes of securities, both stocks and bonds. The "bulls," for the first time for months, seemed have complete control of the market. There was increased buying of both stocks and bonds, and the improved condition of financial affairs in London, together with the positive easy tone given to the money market here, which was especially noticeable, as to-day was Friday, accounted largely for the prevalent disposition to buy. It was a notable fact that as the market advanced there was a scant supply of securities, and for the first time in morths money was relatively cheaper than stocks. The news of the day was very favorable, and the utterances of a noted broker, who is supposed to be close to Mr. Gould, on the position of that gentleman upon the market, caused a general increase of confidence in the situation, and from those utterances and news from the West to-day the next upward movement, which seems to have already begun, will be based upon an advance in railroad rates. A report from London that there is a likelihood of an increase in the circulation there, based upon silver deposits, attracted considerable attention, and had a good effect. The better feeling was apparent at the opening, which was made at gains over last night's figures of from 4 to 1 per cent., and the foreigners were buyers, while there was a marked disposition to purchase for the short account by domestic operators. There was only one weak point in the market, and that was Rock Island, which was savagely attacked and depressed from 644 to 614, the attack being accompanied by a reiteration of the story about the passage of the next dividend. The pressure was removed shortly before noon, however, and it later made a sharp advance, leading the entire list, giving the whole affair the look of

manipulation upon which to cover shorts brls. in the general list. The latter did not sympathize to any extent in the drop in Rock Island, but as soon as the pressure was removed from the latter it began to advance immediately. The Gould stocks, the grangers and specialties of all kinds showed the ead in the upward movement, and there was no real interruption of the advance until the close of business. Slight reactions were frequent, but each advance carried the list further in the upward direction, and final prices are generally close to the best of the day. The market closed active and strong. The final changes are invariably in the direction of higher figures, and the gains are all large in the active stocks. The most important are Sugar Refineries, 43s; Jersey Central, 114; Northern Pacific preferred, 334; C., C., C. & St. Louis, 338; Missouri Pacific, 314; Western Union and Chicago Gas each, 234; Louisville & Nashville, 212; Lake Shore, 238; Union Pacific, 238; Lackawanna, 238; Reading, 214; Burlington & Quincy and Rock Island each, 218; Northwestern and New England each, 2 per cent., and others

The buying of railroad bonds was not the least marked feature of the market to-day, and, for the first time in weeks, the final changes of note are all in the direction of break. The dealings were rather larger. amounting to \$2,253,000, and of that amount Northern Pacific fives furnished \$177,000; Atchisop incomes, \$145,000; Kansas & Texas fours, \$124,000, and Texas Pacific seconds, 111.000. The active issues are materially higher, Northern Pacific fives advanced 21s. to 82; Ohio Southern fours, 3, to 53; Richmond & West Point fives, 238, to 67; Kansas & Texas fours, 2, to 76; Wisconsin Central

smaller amounts.

incomes, 212, to 3412.

Government bonds were dull and heavy. State bonds were dull and without feature. Closing quotations were:

TRADING AT CHICAGO.

Wheat Starts Upward with a Rush and Takes Everything with It. CHICAGO, Nov. 21 .- The entire list of

speculative commodities started an open revolt at yesterday's weakness, and as a fitting answer to unfounded rumors which had been set affoat after the close of 'Change, The firmness at the opening was added to as the day progressed and closing prices were about the best of the day. The great majority of the traders were ready to support prices at the opening, even without such encouragement as the day afforded the market. May wheat, which closed yesterday with sellers at 971s, opened excited and irregular, with trading all the way from 9634@9712 and there was an upward shoot immediately to 9778. Notwithstanding the heavy failure at Philadelphia, which proved to be more serious than was at first thought, there was more serenity in the financial skiesat London and New York than had been seen in a week, and the stock market, while not strong, was devoid of panicky features. The unexpected heaviafter May had reacted to 9712c, and had played for a short time around 975sc and tion, which forced it back to 98c, and these were the changes during the first half-hour. There was no further fluctuation of moment until toward 11 o'clock, when another boom

remarkably, and about a half hour from the close the price had advanced to 9912. During the greater part of the session December followed May at a discount of 7c, but the trading has now centered in the more remote delivery. There was no abatement of the strength of the market. Some sales of December were made in the last few minutes at 93c and of May at \$1. The opening price of corn was very much mixed. There were sellers at 51c, with no buyers in the neighborhood of such offers, while buyers and sellers were trading at the same moment at 5134c across the pit. There was a sale or two at 514sc, but the There was a sale or two at 511sc, but the great bulk of the business at the opening was at 5134c. It immediately advanced to 52c, and during the first half hour moved up and down several times between 5134c and 52c. The market strengthened in sympathy with wheat, under the action of the "shorts," who came in very freely, more especially toward the close. The highest figures of the day were made close to the end of the session. It sold at 5234@5278c. The closing price shows an advance of 1c since yesterday. The buying of Partridge and Hutchinson was the most noticeable feature at the start. Partridge was supposed to be covering shorts. Hutchinson became a seller on the first advance, but changed from one side to the other many stronger and higher. Opening sales were at 12@3sc decline. Prices soon began to move up and advanced 11s@114c, yielded a little, but closed strong at full outside figures and at an advance of 78@1c over yesterday. Quite a good trade was reported in pork and prices was reported in pork and prices ruled irregular. Opening sales were meagre at 212@5c decline, but prices gradually advanced 30@35c. Later a drooping feeling set in, accompanied with a reduction of 15@20c, but rallied again and closed firm. Considerable interest in lard was manifested, and a larger business was transacted. Early in the day the feeling was stronger, and prices advanced to outside figures and closed steady. Short-rib sides trading was quite active, and prices fluctuated considerably. Early in the session ated considerably. Early in the session the feeling was stronger, and prices gradually advanced .10@.1212c. Later prices settled back again .05@.0712c, with fair trading. Toward the close the feeling was firmer, and the market closed at about outside figures. The leading futures ranged

sales, 24,100 bales.

BOSTON, Nov. 21.-There has been a very dull market for wool of all kinds, and the sales were only 1,587,000 pounds. Prices were fairly firm, but in some cases, as usual on a quiet mar-ket, there was some pressure to sell. Small sales of Ohio wool have been made at 32@33c for X and X and above and at 34@35c for XX and XX and above. For Michigan wool it is hard to get over 30c. Combing and delaine fleeces have been in fair demand and small stocks, with sales of No. 1 combing at 40@42c, Ohio fine delaine at 37c, and Michigan fine delaine at 35c. Territory wools have been slow at 60 262c for fine, 58@60e for fine medium and 53@55e for medium. In Texas, Oregon and California wools there has been a quiet trade at unchanged prices. Pulled wools have been in fair demand, with sales of choice supers at 40@45c, fair to good supers at 30@38c, and extras at 25@30c. Foreign wools have been quiet but firm.

ST. LOUIS, Nov. 21.-Wool-Receipts, 38,100 pounds. The market was easy, with a downward tendency; unwashed bright medium, 20 a 25c; coarse braid, 15 a 23c; low sandy, 12 a 18c; fine light, 17@22c; fine heavy, 12@20c; tub washed, choice, 35c; interior, 30@33c NEW YORK, Nov. 21.-Wool steady but quiet:

lomestic fleece, 34@39c; pulled, 27@34c; Texas PHILADELPHIA, Nov. 21 .- Wool - Market

INDIANAPOLIS MARKETS.

The Local Situation Without Any New Features, with Business Moderately Active. INDIANAPOLIS, Nov. 21.-In the local situation there is little which is new to note. There was seemingly a little more activity to-day, but still the volume of business this week is falling below that of several of the preceding weeks of late. In prices there were no changes of importance. The New York Commercial Bulletin of Thursday last says of the grocery market: "There were few if any really new suggestions to be heard as influencing the general situation, the majority of goods in the way of staple groceries showing a sort of drag, out of which there seems to be some doubt about lifting the market at the moment. The peculiar features current on sweets, including the position of the local raw sugar-buying element and the more universal factor to be found in shaping ends for comng change in duty, creates an uncertain strain, and all hands are in consequence sailing too close to the wind, with a more or less weakish tendency on values. Coffee, shackled by a speculative annex of considerable magnitude, has a market difficult to fathom, and buyers of actual goods in consequence adhere to the safe policy of making pretty much all their calls represent the actual requirements of the moment. Other goods are slow and uncertain, except such as are thoroughly seasonable and of a character to require quick handling to make them useful." In the produce markets, with the near approach of Thanksgiving, there is a good deal of activity. Poultry is steady at quotations and in good demand. Fruits of the

The local market was moderately active. Wheat declined 112 cent, as compared with Thursday's prices. Corn and oats were in good request, track bids ruling as follows: Wheat-No. 2 red, 92c, to arrive; No. 3 red 90c; rejected, 80@87c; unmerchantable, 70@

Germantown Telegraph.

For two months past we have been imbibing wisdom from the Telegraph ex-changes, but we doubt the quality of the article. We read that the farmers are much depressed from overproduction, we read also that all crops this year will be short. We know that when crops are abundant and prices low labor pro rata is heavy and profits light; that when crops Raymond City, \$4.50 \$4 ton; Jackson, \$4; | are light, as in this year (1890), and prices of corn just double those of last year, labor is proportionally light, and profits are excellent, and as cattle and hogs are advancing in price, we can't see what the farmers have to complaim of this year, nor why under-production is as bad for the farmers as overproduction.

A pretty and convenient article is a coffee pot holder. Crochet a square in star stitch, and make a shell border around three sides. Gather the fourth side close, which will fit over the handle and so keep its place.

A priction of this year, nor lind a silk square are on top of this pillow foot-stool, and are held down by a long-looped bow of satin ribon in harmonizing or contrasting color. A pretty down lounge pillow, a head-rest filled with spruce-buds, covered in an artistic way; a duvet or lounge comfortable made of India silk, filled with down or wadding, and tuft with baby ribbon, a silk knitting-apron, or a satin work-bag, are all suitable gifts.

Is not an experiment; it has been tested, and its enormous sale is due solely to its merit. It is made on honor, and good housekeepers say SANTA CLAUS SOAP
"is a necessity." Don't let your dealer
give you some other kind, if he hasn't
Santa Claus, but insist on having only SANTA CLAUS SOAP. N. K. FAIRBANK & CO., Mfrs., Chicago, Ill.

In bottling cateup or pickles boil the corks, and while hot you can press them into the bottles, and when cold they are tightly sealed. Use the tin-foil from compressed yeast to cover the corks.

Many children are so nauseated with the

taste of castor oil that they cannot retain it, but if the unpleasant dose is given in a third of a cup of strong coffee the taste is so nearly concealed that its presence is not always detected. Pretty work-baskets are made from four small strawberry-boxes. They are covered on the outside with any material wished,

elegant or otherwise, and lined with col

ored cambric or sateen. They are then joined together where the corners meet in the center with a full bow of ribbon. For Christmas a pleasant pift for an elderly lady would be a soft foot-stool. These are made of a feather pillow, in round hassock shape, about fourteen inches across, and five or six inches high, are covered with ticking and are afterwards knotted up in a square of India silk, in any dark, artistic color. The knotted corners of the
